8-12 Month Contracts Available

Design and tailor your contract to cover exactly what your clients need.

Sustainability

Where possible, we work with local Scottish farms to dispose of our landscaping waste.

Here it is turned into compost for plant growth, or up-cycled and sold as peat.

About Bayside Landscaping

We're already trusted by various businesses for contracted landscaping and green-space upkeep. We are making a big push for incorporating our services to our residential customers.

The big-picture target, is for Bayside to replace the need for a dozen contractors going out to a property. Saving your agency hassle, and saving your landlords money.

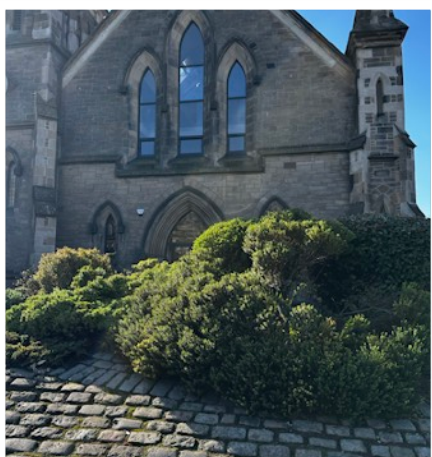

We know your properties, we know your expectations, and most importantly; we know our trades.

What we can do, for you.

Landscaping works are primarily quoted for and billed out accordingly. However, given the nature of your business, and ours, it is in our best interest to provide an honest and fair price, with the interest of prolonging and expanding our professional relationship as we grow.

With this in mind, we have incorporated our End of Tenancy service, as well as our monthly Service Contracts, directly into our Residential Services.

Services Provided:

- Hedge Trimming & Lawn-mowing;
- Debris Cleanup & Weeding;
- Removal & Replanting New Greenery;
- Beds & Grounds Maintenance (Stones, Grit, & Sand);
- Mould Treatment & Prevention (Eco & Chemical Solutions);
- Tree Surgery (Trusted Subcontractor);
- Masonry Repairs & Wirebrush Stone Cleaning

Service Areas:

- City of Edinburgh, Fife, & Central Belt.
- City of Glasgow, Lothians, Dundee, Perth. (From +£30-£45 per callout)

TESTIMONIAL

“as was said by many of the staff here, the previous gardening contractor did nothing like you have done to address and advise with the garden and plant care” –G.B.
